

MANAGEMENT SYSTEM CERTIFICATE

Certificate no.:
C777510

Initial certification date:
01 July 2013
(by different Certification body)

Valid:
01 July 2025 – 30 June 2028

This is to certify that the management system of
UNICALCE S.p.A.
Via Ponti, 18 - 24012 Val Brembilla (BG) - Italy
and the sites as mentioned in the appendix accompanying this certificate

has been found to conform to the Occupational Health and Safety Management System standard:
ISO 45001:2018

This certificate is valid for the following scope:

Extraction and processing of limestone and dolomite, calcination of limestone and dolomite for the production of calcium oxide, calcium hydroxide, calcium oxide and calcium hydroxide with high magnesium content, dolomitic oxide and hydroxide, lime-based mixtures, slaked lime, wet mortars. Production of aggregates, sands, fillers and fine products, from limestone and dolomite. Production of calcium-magnesium soil amendments. Production and marketing of mortars and complementary products for the building industry. Testing and analysis according to standard methods for determining the characteristics of materials in accordance with industry standards and monitoring of greenhouse gas emissions (IAF 16, 02, 35)

Place and date:
Vimercate (MB), 30 June 2025

For the issuing office:
DNV - Business Assurance
Via Energy Park, 14, - 20871 Vimercate (MB) - Italy

00010

Claudia Baroncini
Management Representative

Appendix to Certificate

UNICALCE S.p.A.

Locations included in the certification are as follows:

Site Name	Site Address	Site Scope
UNICALCE S.p.A.	Via Ponti, 18 - 24012 Val Brembilla (BG) - Italy	Extraction and processing of calcium carbonate, firing of calcium carbonate for the production of calcium oxide, calcium hydroxide, magnesium oxide, production of high-grade magnesium calcium oxide, calcium hydrate and sorbitol, clating and live lime production, Hydrated lime, grout and wet mortar, production of aggregates, calcareous sands and dry premixes for construction through the mixing and packaging stages. Production of fillers and fine products classified from dolomite, calcium-magnesium soil corrective improvers, dolomitic lime and dolomitic hydrated lime by mining, crushing, screening and washing in continuous furnaces; screening, refining hydration, storage in silos and packaging of the finished product. Limestone extraction and production of quicklime and hydrated lime. Tests and analyses according to standard methods on calcium oxides and hydroxides, calcium oxides and magnesium oxides, aggregate, raw and complementary materials for the determination of material characteristics under industry standards and the monitoring of greenhouse gas emissions.

Site Name	Site Address	Site Scope
UNICALCE S.p.A.	Via Lisso, 12 - 24010 Sedrina (BG) - Italy	Extraction and processing of calcium carbonate, firing of calcium carbonate for the production of calcium oxide, calcium hydroxide, magnesium oxide, production of high-grade magnesium calcium oxide, calcium hydrate and sorbitol, clating and live lime production, Hydrated lime, grout and wet mortar, production of aggregates, calcareous sands and dry premixes for construction through the mixing and packaging stages. Production of fillers and fine products classified from dolomite, calcium-magnesium soil corrective improvers, dolomitic lime and dolomitic hydrated lime by mining, crushing, screening and washing in continuous furnaces; screening, refining hydration, storage in silos and packaging of the finished product. Limestone extraction and production of quicklime and hydrated lime. Tests and analyses according to standard methods on calcium oxides and hydroxides, calcium oxides and magnesium oxides, aggregate, raw and complementary materials for the determination of material characteristics under industry standards and the monitoring of greenhouse gas emissions.
UNICALCE S.p.A.	Via Cacosio, 6 - 24010 Sedrina (BG) - Italy	Extraction and processing of calcium carbonate, firing of calcium carbonate for the production of calcium oxide, calcium hydroxide, magnesium oxide, production of high-grade magnesium calcium oxide, calcium hydrate and sorbitol, clating and live lime production, Hydrated lime, grout and wet mortar, production of aggregates, calcareous sands and dry premixes for construction through the mixing and packaging stages. Production of fillers and fine products classified from dolomite, calcium-magnesium soil corrective improvers, dolomitic lime and dolomitic hydrated lime by mining, crushing, screening and washing in continuous furnaces; screening, refining hydration, storage in silos and packaging of the finished product. Limestone extraction and production of quicklime and hydrated lime. Tests and analyses according to standard methods on calcium oxides and hydroxides, calcium oxides and magnesium oxides, aggregate, raw and complementary materials for the determination of material characteristics under industry standards and the monitoring of greenhouse gas emissions.

Site Name	Site Address	Site Scope
UNICALCE S.p.A.	Via alle Fornaci, 11 - 23900 Lecco (LC) - Italy	Extraction and processing of calcium carbonate, firing of calcium carbonate for the production of calcium oxide, calcium hydroxide, magnesium oxide, production of high-grade magnesium calcium oxide, calcium hydrate and sorbitol, clating and live lime production, Hydrated lime, grout and wet mortar, production of aggregates, calcareous sands and dry premixes for construction through the mixing and packaging stages. Production of fillers and fine products classified from dolomite, calcium-magnesium soil corrective improvers, dolomitic lime and dolomitic hydrated lime by mining, crushing, screening and washing in continuous furnaces; screening, refining hydration, storage in silos and packaging of the finished product. Limestone extraction and production of quicklime and hydrated lime. Tests and analyses according to standard methods on calcium oxides and hydroxides, calcium oxides and magnesium oxides, aggregate, raw and complementary materials for the determination of material characteristics under industry standards and the monitoring of greenhouse gas emissions.
UNICALCE S.p.A	Via Chiaravagna, 144 - 16153 Genova (GE) - Italy	Extraction and processing of calcium carbonate, firing of calcium carbonate for the production of calcium oxide, calcium hydroxide, magnesium oxide, production of high-grade magnesium calcium oxide, calcium hydrate and sorbitol, clating and live lime production, Hydrated lime, grout and wet mortar, production of aggregates, calcareous sands and dry premixes for construction through the mixing and packaging stages. Production of fillers and fine products classified from dolomite, calcium-magnesium soil corrective improvers, dolomitic lime and dolomitic hydrated lime by mining, crushing, screening and washing in continuous furnaces; screening, refining hydration, storage in silos and packaging of the finished product. Limestone extraction and production of quicklime and hydrated lime. Tests and analyses according to standard methods on calcium oxides and hydroxides, calcium oxides and magnesium oxides, aggregate, raw and complementary materials for the determination of material characteristics under industry standards and the monitoring of greenhouse gas emissions.

Site Name	Site Address	Site Scope
UNICALCE S.p.A.	Via Aldo Bruno, 27 - 12010 Bernezzo (CN) - Italy	Extraction and processing of calcium carbonate, firing of calcium carbonate for the production of calcium oxide, calcium hydroxide, magnesium oxide, production of high-grade magnesium calcium oxide, calcium hydrate and sorbitol, clating and live lime production, Hydrated lime, grout and wet mortar, production of aggregates, calcareous sands and dry premixes for construction through the mixing and packaging stages. Production of fillers and fine products classified from dolomite, calcium-magnesium soil corrective improvers, dolomitic lime and dolomitic hydrated lime by mining, crushing, screening and washing in continuous furnaces; screening, refining hydration, storage in silos and packaging of the finished product. Limestone extraction and production of quicklime and hydrated lime. Tests and analyses according to standard methods on calcium oxides and hydroxides, calcium oxides and magnesium oxides, aggregate, raw and complementary materials for the determination of material characteristics under industry standards and the monitoring of greenhouse gas emissions.
UNICALCE S.p.A.	Contrada Lupini - C.P. 33 - 74019 Palagiano (TA) - Italy	Extraction and processing of calcium carbonate, firing of calcium carbonate for the production of calcium oxide, calcium hydroxide, magnesium oxide, production of high-grade magnesium calcium oxide, calcium hydrate and sorbitol, clating and live lime production, Hydrated lime, grout and wet mortar, production of aggregates, calcareous sands and dry premixes for construction through the mixing and packaging stages. Production of fillers and fine products classified from dolomite, calcium-magnesium soil corrective improvers, dolomitic lime and dolomitic hydrated lime by mining, crushing, screening and washing in continuous furnaces; screening, refining hydration, storage in silos and packaging of the finished product. Limestone extraction and production of quicklime and hydrated lime. Tests and analyses according to standard methods on calcium oxides and hydroxides, calcium oxides and magnesium oxides, aggregate, raw and complementary materials for the determination of material characteristics under industry standards and the monitoring of greenhouse gas emissions.

Site Name	Site Address	Site Scope
UNICALCE S.p.A.	Strada Amerina, snc, Fraz. San Pellegrino - 05035 Narni (TR) - Italy	Extraction and processing of calcium carbonate, firing of calcium carbonate for the production of calcium oxide, calcium hydroxide, magnesium oxide, production of high-grade magnesium calcium oxide, calcium hydrate and sorbitol, clating and live lime production, Hydrated lime, grout and wet mortar, production of aggregates, calcareous sands and dry premixes for construction through the mixing and packaging stages. Production of fillers and fine products classified from dolomite, calcium-magnesium soil corrective improvers, dolomitic lime and dolomitic hydrated lime by mining, crushing, screening and washing in continuous furnaces; screening, refining hydration, storage in silos and packaging of the finished product. Limestone extraction and production of quicklime and hydrated lime. Tests and analyses according to standard methods on calcium oxides and hydroxides, calcium oxides and magnesium oxides, aggregate, raw and complementary materials for the determination of material characteristics under industry standards and the monitoring of greenhouse gas emissions.
UNICALCE S.p.A.	Via Flaminia Romana, 449 - 05035 Narni (TR) - Italy	Extraction and processing of calcium carbonate, firing of calcium carbonate for the production of calcium oxide, calcium hydroxide, magnesium oxide, production of high-grade magnesium calcium oxide, calcium hydrate and sorbitol, clating and live lime production, Hydrated lime, grout and wet mortar, production of aggregates, calcareous sands and dry premixes for construction through the mixing and packaging stages. Production of fillers and fine products classified from dolomite, calcium-magnesium soil corrective improvers, dolomitic lime and dolomitic hydrated lime by mining, crushing, screening and washing in continuous furnaces; screening, refining hydration, storage in silos and packaging of the finished product. Limestone extraction and production of quicklime and hydrated lime. Tests and analyses according to standard methods on calcium oxides and hydroxides, calcium oxides and magnesium oxides, aggregate, raw and complementary materials for the determination of material characteristics under industry standards and the monitoring of greenhouse gas emissions.

Site Name	Site Address	Site Scope
UNICALCE S.p.A.	Strada di Prisciano, 104 - 05100 Terni (TR) - Italy	Extraction and processing of calcium carbonate, firing of calcium carbonate for the production of calcium oxide, calcium hydroxide, magnesium oxide, production of high-grade magnesium calcium oxide, calcium hydrate and sorbitol, clating and live lime production, Hydrated lime, grout and wet mortar, production of aggregates, calcareous sands and dry premixes for construction through the mixing and packaging stages. Production of fillers and fine products classified from dolomite, calcium-magnesium soil corrective improvers, dolomitic lime and dolomitic hydrated lime by mining, crushing, screening and washing in continuous furnaces; screening, refining hydration, storage in silos and packaging of the finished product. Limestone extraction and production of quicklime and hydrated lime. Tests and analyses according to standard methods on calcium oxides and hydroxides, calcium oxides and magnesium oxides, aggregate, raw and complementary materials for the determination of material characteristics under industry standards and the monitoring of greenhouse gas emissions.
UNICALCE S.p.A.	Strada Statale Appia Km 134, Snc, Fraz. Santa Mariabella - 04020 Itri (LT) - Italy	Extraction and processing of calcium carbonate, firing of calcium carbonate for the production of calcium oxide, calcium hydroxide, magnesium oxide, production of high-grade magnesium calcium oxide, calcium hydrate and sorbitol, clating and live lime production, Hydrated lime, grout and wet mortar, production of aggregates, calcareous sands and dry premixes for construction through the mixing and packaging stages. Production of fillers and fine products classified from dolomite, calcium-magnesium soil corrective improvers, dolomitic lime and dolomitic hydrated lime by mining, crushing, screening and washing in continuous furnaces; screening, refining hydration, storage in silos and packaging of the finished product. Limestone extraction and production of quicklime and hydrated lime. Tests and analyses according to standard methods on calcium oxides and hydroxides, calcium oxides and magnesium oxides, aggregate, raw and complementary materials for the determination of material characteristics under industry standards and the monitoring of greenhouse gas emissions.

Site Name	Site Address	Site Scope
UNICALCE S.p.A.	Via di San Vincenzo, 31, Fraz. Botro ai Marmi - 57021 Campiglia Marittima (LI) - Italy	Extraction and processing of calcium carbonate, firing of calcium carbonate for the production of calcium oxide, calcium hydroxide, magnesium oxide, production of high-grade magnesium calcium oxide, calcium hydrate and sorbitol, clating and live lime production, Hydrated lime, grout and wet mortar, production of aggregates, calcareous sands and dry premixes for construction through the mixing and packaging stages. Production of fillers and fine products classified from dolomite, calcium-magnesium soil corrective improvers, dolomitic lime and dolomitic hydrated lime by mining, crushing, screening and washing in continuous furnaces; screening, refining hydration, storage in silos and packaging of the finished product. Limestone extraction and production of quicklime and hydrated lime. Tests and analyses according to standard methods on calcium oxides and hydroxides, calcium oxides and magnesium oxides, aggregate, raw and complementary materials for the determination of material characteristics under industry standards and the monitoring of greenhouse gas emissions.
UNICALCE S.p.A.	Via Tonio da Belleo, 30 - 23900 Lecco (LC) - Italy	Coordination, administrative and financial management, commercial, logistics and research and development activities for production sites
UNICALCE S.p.A.	Via Serio, 72 - 24020 Casnigo (BG) - Italy	Extraction and processing of calcium carbonate, firing of calcium carbonate for the production of calcium oxide, calcium hydroxide, magnesium oxide, production of high-grade magnesium calcium oxide, calcium hydrate and sorbitol, clating and live lime production, Hydrated lime, grout and wet mortar, production of aggregates, calcareous sands and dry premixes for construction through the mixing and packaging stages. Production of fillers and fine products classified from dolomite, calcium-magnesium soil corrective improvers, dolomitic lime and dolomitic hydrated lime by mining, crushing, screening and washing in continuous furnaces; screening, refining hydration, storage in silos and packaging of the finished product. Limestone extraction and production of quicklime and hydrated lime. Tests and analyses according to standard methods on calcium oxides and hydroxides, calcium oxides and magnesium oxides, aggregate, raw and complementary materials for the determination of material characteristics under industry standards and the monitoring of greenhouse gas emissions.
